A Note from your Presidents...

Dear Classmate,

Hope the New Year finds you healthy and happy!

We had a great show of classmates at our 45th Reunion and hope to have an even greater attendance at our 50th in May, 2019!

A committee of your classmates has already begun working on a 50th Reunion project to collect and publish Class of 1969 Penn Memories. Please look for an upcoming class communication that will have sample class memories and more details on how you can contribute and have your personal memory published.

Yours in Red and Blue,

James P. Druckman | Mary Ellen Cianfrani Miller

p.s. It’s not too early - Volunteer for our Reunion Team!

Join the fun and help us plan a memorable 50th Reunion. Meetings will be timely phone conferences. Contact Mary Ellen Miller, maryemiller@alumni.upenn.edu, to join our reunion team.

Class of 1969 Endowed Scholarship

The Scholarship Celebration, held November 11, 2014 gave class leaders an opportunity to visit once again with our exceptionally gifted Class of 1969 scholars. Jordan and Sara were also student ambassadors for our 45th Reunion - they were a great help in making our reunion such a success.

Jordan Pearson C’17 is working on a Biological Basis of Behavior degree while finding time to be a member of the varsity soccer team. This summer, Jordan had a wonderful experience interning at John Hopkins Children’s Hospital.

"Thank you again for making all of this possible for me. I’m so grateful that I am able to experience Penn because of your generosity." - Jordan

Sara Ramirez C’17 plans to achieve a dual major in both Health and Sciences and Fine Arts. Sara spent her summer working at Harnwell College House as a Student Information Center Specialist.

"This year has been great and eye-opening. Thank you for allowing me to have these experiences." - Sara

**CLASS OF 1969 GREEN ROOFS**

In 2007, Dr. Amy Guttmann signed the American College and University Presidents’ Climate Commitment. This pledge commits Penn to significantly reducing climate-altering greenhouse gases. In support of this, the Kislack Center includes the Class of 1969 Green Roofs, which comprise large areas along the edges of the 6th floor that are exposing parts of the 5th floor roof.

Not only do the Green Roofs improve the views from much of the 6th floor and complete the ambience of the Kislack Center by adding personality to the rooftops, but they also absorb rainwater, provide insulation and help to lower the urban air temperatures.
